Challenges & Opportunities

Bitcoin Custody in an Institutional Framework

Bitcoin holdings present unique challenges for institutional investors and family offices seeking to balance security, compliance, and return optimization.

YMC Edge:

Our solution transforms Bitcoin from a static holding into a yield-generating asset while eliminating operational burdens and compliance concerns.

Key Challenges:

- Security vulnerabilities in standard wallet solutions
- Regulatory uncertainty and compliance burden
- Reputational risk concerns for established firms
- Zero yield on static Bitcoin holdings
- Limited market intelligence from passive custody

Your Opportunity:

- Transform Bitcoin from a static holding into a yield-generating asset while maintaining institutional compliance and gaining market insights.

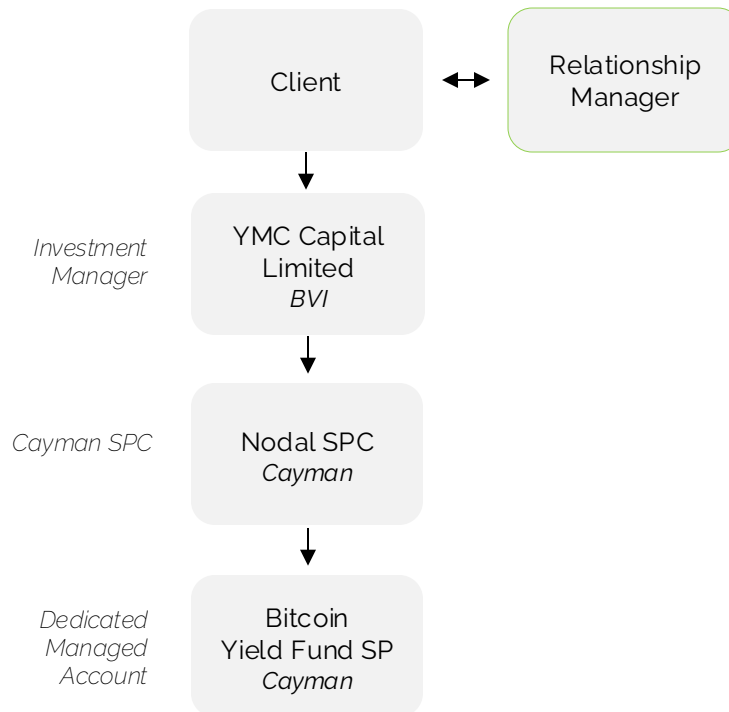

Solution Architecture

Optimal Bitcoin Yield Structure

YMC Partners has developed a proven, regulatory-compliant structure to maximize Bitcoin yield opportunities while maintaining institutional security standards and full control.

YMC Edge:

Regular interaction with our investment team keeps you informed of the current market environment, potentially leading to additional strategic opportunities beyond Bitcoin yield.

Key Advantages:

- 30-50% lower costs compared to traditional institutional solutions
- Institutional-grade security with multi-signature custody
- Regulatory compliance ensuring banking and auditor acceptance
- Segregated portfolio structure providing asset protection
- Full transparency with monthly reporting and audited statements
